3M Medium Voltage & Accessories

Swift has the products and the expertise you need for medium voltage. Whether it's time-saving splice kits, termination kits, or cold shrink products, we have you covered.

3M™ Cold Shrink Shielded Splice Kits

- For splicing shielded, solid dielectric, power cables
- Each kit contains all the materials required to construct three (3) single conductor splices on Tape Shield, Wire Shield or UniShield® cables
Connectors and optional ground strap not included
- The kit can also be used to splice a shielded to a non-shielded 5/8 kV cable

Medium Voltage Termination Kits

- Provides a void-free seal to tape shield, wire shield and UniShield® power cables
- High dielectric-constant material regulates the distribution of electric field stress
- Suitable for indoor applications
- Silicone rubber insulation offers durability and reduces leakage currents in damp conditions

3M Scotchlok™ Copper/Aluminum Compression Rugs 40000 Series

are made of high conductivity aluminum and designed to terminate **aluminum or copper conductors**. The two-hole lug design provides increased secureness, resists electrolytic corrosion, installs using standard industry tooling. Product in stock ranges from 1/0 AWG through 750 kcmil.

5551 3/kit	3M™ Cold Shrink Rubber Splice Kit Conductor sizes 6-4/0 AWG, Cu.
5552 3/kit	3M™ Cold Shrink Splice Kit Conductor sizes 4/0 AWG-500kcmil, Cu.
QS4-15SP-2-4/0-BCA* 1/kit	3M™ Cold Shrink QS4 Integrated Splice Conductor sizes #2 thru 4/0, Cu., Kit goes up to 15kv*
