FIRESTOP PRODUCTS AND ACCESSORIES

3M™ Fire Barrier Rated Foam FIP 1-Step

Designed to expand up to 5 times in volume after dispensing, This intumescent foam can be used to fill the annular space created by pipes and cables penetrating through fire-rated construction.

- Firestop tested and rated up to 2 hours in accordance with ASTM E814 (UL 1479) and CAN/ULC-S115
- Re-enterable and repairable foam remains pliable after installation
- Excellent adhesion and does not require backing material in wall or floor applications

3M™ Fire Barrier Composite Sheet CS-195+

- Four component intumescent system is ideal firestop solution for larger penetrations such as cable trays and conduit
- Forms effective intermittent fire-break within horizontal and vertical cable tray runs
- Hard char material tightly seals penetrations against flame spread, smoke, and toxic gasses
- Easy to cut, form, and install using ordinary tools
