

SWIFT NEW PRODUCT SPOTLIGHT

3M FIRESTOP PRODUCTS AND ACCESSORIES

3M™ Electrical Box Insert

- Helps contain fire and delay damage to building infrastructure in electrical box outlets and switches; features 3M™ Hyper-GS Intumescent Technology, expands 100x
- Designed for easy and fast installation with full-adhesive backed insert
- All-in-one design, no stud cavity or other fire protection products required
- No tools required, ideal for retrofit and new construction applications
- Tested and listed to UL 1479 to restore the rating of fire-rated walls for penetrations involving electrical box outlets

1. Peel off liner to expose the adhesive on the back side of the insert

2. Feed wiring through pre-cut slits for easy installation

3. Secure insert to the back of the box

Number	Size Applications	Thickness	Width	Length
#EBI-4	For use in 4" x 4" (102mm x 102mm) boxes	3/16" (4.76mm)	3 1/4" (82.55 mm)	3 1/4" (82.55 mm)
#EBI-5	For use in 5" x 5" (127mm x 127mm) boxes & smaller	3/16" (4.76mm)	3 3/4" (95.25mm)	3 3/4" (92.25 mm)

SWIFT **NEW** PRODUCT **SPOTLIGHT**

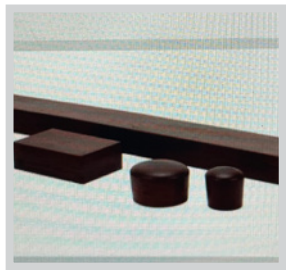

3M™ Fire Barrier Rated Foam FIP 1-Step

- Intumescent foam expands up to 5 times its size, fills annular spaces created in fire-rated construction
- Firestop tested and rated up to 2 hours - ASTM E814 (UL 1479 and CAN/ULC-S115)
- Re-enterable and repairable foam remains pliable after installation
- Excellent adhesion, does not require backing material in wall or floor applications

3M™ Fire Barrier Composite Sheet CS-195+

- Four-component intumescent system, ideal for larger penetrations such as cable trays and conduit
- Hard char material seals penetrates against flame spread, smoke and toxic gasses
- Easy to cut, form, and install using common trade tools
- Re-enterable for new or retrofit installations

3M™ Fire Barrier Blocks, Planks, and Plugs

- A better way to fill large gaps with simple "stack, seal and done" application
- Remains securely in place without wire mesh reinforcements
- Sizes include a 39-inch plank to help fill openings quickly
- Paintable with primer; can be sealed with 3M™ Fire Barrier Rated Foam FIP1-Step
