ALL KITS IN STOCK!

3M Medium Voltage & Accessories

Swift has the products and the expertise you need for medium voltage. Whether it's time-saving splice kits, termination kits, or cold shrink products, we have you covered.

3M

Medium Voltage Splice and Termination Kits

3M™ Cold Shrink Shielded Splice Kits

For splicing 5 kV and 8 kV shielded, solid dielectric, power cables. Meets requirements of IEEE 404. Each kit contains all the materials (except connectors and optional ground strap) required to construct three (3) single conductor splices on Tape Shield, Wire Shield or UniShield® cables. Note: The kit can also be used to splice a shielded to a non-shielded 5/8 kV cable.

3M™ Cold Shrink Rubber Splice Kit

5551

Ideal for splicing 3/C, 5/8 kV shielded, armored and non-armored cables. Conductor sizes 6-4/0 AWG, Cu.

3M™ Cold Shrink Splice Kit

5552

Provides splicing on tape/wire/Unishield, 5/8 kV applications. Conductor sizes 4/0AWG-500kcmil, Cu.

3M™ Cold Shrink QS4 Integrated Splice

QS4-15SP-2-4/0-BCA

3M™ Cold Shrink QS4 Integrated Splice

QS4-15SP-QCI-4/0-500-BCA

Medium Voltage Termination Kits

- Provides a void-free seal to tape shield, wire shield and UniShield® power cables
- High dielectric-constant material regulates the distribution of electric field stress
- Suitable for indoor applications
- Silicone rubber insulation offers durability and reduces leakage currents in damp conditions

3M™ Cold Shrink QT-III Termination Kit

7622-T-110, Tape/Wire/UniShield® Shielding, 5-15 kV, Insulation OD 0.64-1.08 in, 3/kit

3M™ Cold Shrink QT-III 3/C Termination Kit

7623-T-110, Tape/Wire/UniShield®, 5-15kV, Insulation OD 0.72-1.29 in, 3/kit

3M™ Cold Shrink QT-III 3/C Termination Kit

7624-T-110, Tape/Wire/UniShield®, 5-15 kV, Insulation OD 0.92-1.18 in, 3/kit

3M™ Cold Shrink QT-III 3/C Termination Kit

7625-T-110, Tape Shielded, 5-15 kV, Insulation OD 1.18-1.51 in, 3/kit

Scotch®

Scotch® Cable Jacket Repair Tape 2234

A cost effective and efficient means of covering and protecting damaged sections of cable jacket, thereby extending the life of the cable and reducing down time. The outer layer of the tape is composed of vulcanized CSM rubber to provide outstanding chemical and environmental resistance. The inner layer is composed of flame-retardant mastic and acts as a moisture barrier which provides excellent adhesion to a variety of jacket materials.

- Industrial-quality 60 mil thick tape
- Withstands a wide temperature range of -22 to 221 °F (-30 to 105 °C)
- RoHS 2011/65/EU Compliant
- Insulates and protects damaged cable jackets
- Flame retardant
- Good adhesion to cable jacket materials
- Excellent abrasion resistance
- Resistant to heat, oil, ozone, UV and other environmental effects
- Maintains flexibility to -22°F (-30°C)
- Designed for jacket repair on portable power cables, draglines and diesel locomotive, welding and shipboard cables

Scotch® Fire-Retardant Electric Arc Proofing Tape 77

30 mil thick, premium grade, flame retardant, electric arc proofing tape. This tape is 600V rated and is suitable to protect most types of electrical cables when exposed to potential failures in an adjacent cable. It is designed with a flexible unsupported elastomer, which makes it easy to apply and easy to remove for cable inspection.

- Intumescent elastomer backing
- For protecting most types of electrical cables when exposed to potential failures in an adjacent cable
- Conformability offers virtually wrinkle-free wrapping with minimal effort
- UL Listed and RoHS 2011/65/EU Compliant
